

Dear CA Families,

On Monday, March 16, Clarksville Academy will observe a Professional Development Day for teachers and staff. We are giving our employees the option to work remotely or on site, as long as between now and Monday, we continue to have no confirmed cases of COVID-19 that affect our school community.

This day will be an opportunity for your child's teachers to create quality distance learning classroom content, should the need arise. Our main goal at CA is to keep not only our students, but also our faculty, staff and families safe and healthy. In the event school is not in session for multiple days or even weeks, we want to continue to provide consistent lessons of quality for your child. Thankfully, with our 1:1 capability, distance learning is available to our families. All students in grades K-12 will have their electronic devices in their homes for access to online learning.

The CA Administrative Team will continue to monitor the COVID-19 situation daily. We will continue to have contact with the Montgomery County Health Department, and we will monitor federal and state health agencies. We will communicate updates to you as soon as they are available.

While Montgomery County has not seen a confirmed case of COVID-19, we feel it is imperative to give our teachers time to prepare for a possible closure. At the same time, we recognize the strain on families when children are not in school. We encourage you to support one another as a CA family. Your continued understanding is appreciated.

Sincerely,
The CA Administrative Team
