

Summer Reading 2022

Clarksville Academy Middle School

This summer, grades 5-8 are expected to read a grade appropriate novel and complete a book review on the template provided. All students may choose a work of **fiction or nonfiction**. The books should be grade appropriate, but we also want students to choose a book that catches their interest.

The public library and their skilled librarians are a great resource for selecting a book that meets both student interest and grade level appropriate.

The Book Review Page: All students should complete the book review on the next page. These will be bound and kept in the classroom for all students and visitors to see. It is a tool we will turn to throughout the year for students to continue finding independent reads and furthering their reading interests and accomplishments. Please be thorough and legible in completing the review.

Rising 5th & 6th grade students will fill out the Book Review Sheet to turn in the first day of school.
